

Kristine Bradford

My name is Kristine Bradford and I am originally from a small-town called Dayton, Minnesota. I moved to Dallas, GA in late 2005 then Cherokee County in late 2015 and met my soon to be husband Chris who was living in Lake Arrowhead. We moved to away for a few years and just recently moved back to our oasis that we missed so much.

I have three children named Ellie, Morgan and Nick along with our pup's Tucker and Charlie. I was raised to be fair and honest and still uphold my beliefs. For many years I have done volunteer work starting with my local church, then City Hall where we cleaned up local parks. I volunteered at my kid's schools and even was a room mom. In high school I was active in concert, marching and jazz band playing trumpet and baritone.

My first job was as secretary for my local City Hall. I would answer calls, make copies of plots for residents and communicate with the joint police and fire station. Later, I went on to work as a contracted security officer for a DOD company, and then office managers for multiple construction companies. I would look for new opportunities, serve as HR/Payroll, visit and supervise jobsites. Even worked customer service for a local flooring company where I performed scheduling and order writing for apartment's and a local home builder. I have handled different kinds of conflict and whether I need to get answers or help, I always get back in a timely fashion. I am very customer service driven.

Today I am keeping house and spending time with my husband and our pup's. I enjoy taking photos, listening to music, visiting family and friends, and when it gets cooler, walking.

My belief is to be transparent, listen, be understanding and objective. My passion is to give back and always make a positive difference where I can. I have always wanted to join a board so I can serve the community that I love and proud to be part of.
